## Instructions

Mark your ballot in black ball point pen only. Completely darken the oval next to the candidate(s) of your choice, making sure to vote only for the number of candidates to be elected in each contest. If you wish to vote for a candidate that is not on the ballot, write in a name and darken the oval next to the "write-in" selection.

## Straight Party Voting

To vote a Straight Party ticket, darken the oval to the left of the party of your choice. This allows you to vote all at once for the candidates for one political party. In any race, you may choose candidates individually from any party by filling in the oval next to the names of all the candidates you wish to vote for. The candidates you selected individually for that race will override your straight party selections for that race only. If you don’t want to use the straight party voting party voting option, continue without making a selection.

**Instructions**

Mark your ballot in black ball point pen only. Completely darken the oval next to the candidate(s) of your choice, making sure to vote only for the number of candidates to be elected in each contest. If you wish to vote for a candidate that is not on the ballot, write in a name and darken the oval next to the "write-in" selection.

**Straight Party Voting**

To vote a Straight Party ticket, darken the oval to the left of the party of your choice. This allows you to vote all at once for the candidates for one political party. In any race, you may choose candidates individually from any party by filling in the oval next to the names of all the candidates you wish to vote for. The candidates you selected individually for that race will override your straight party selections for that race only. If you don't want to use the straight party voting option, continue without making a selection.

Instructions
Mark your ballot in black ball point pen only. Completely darken the oval next to the candidate(s) of your choice, making sure to vote only for the number of candidates to be elected in each contest. If you wish to vote for a candidate that is not on the ballot, write in a name and darken the oval next to the "write-in" selection.

Straight Party Voting
To vote a Straight Party ticket, darken the oval to the left of the party of your choice. This allows you to vote all at once for the candidates for one political party. In any race, you may choose candidates individually from any party by filling in the oval next to the names of all the candidates you wish to vote for. The candidates you selected individually for that race will override your straight party selections for that race only. If you don’t want to use the straight party voting party voting option, continue without making a selection.

**Instructions**
Mark your ballot in black ball point pen only. Completely darken the oval next to the candidate(s) of your choice, making sure to vote only for the number of candidates to be elected in each contest. If you wish to vote for a candidate that is not on the ballot, write in a name and darken the oval next to the "write-in" selection.

**Straight Party Voting**
To vote a Straight Party ticket, darken the oval to the left of the party of your choice. This allows you to vote all at once for the candidates for one political party. In any race, you may choose candidates individually from any party by filling in the oval next to the names of all the candidates you wish to vote for. The candidates you selected individually for that race will override your straight party selections for that race only. If you don't want to use the straight party voting party voting option, continue without making a selection.
